

**Que:** What are your core values and beliefs? (আপনার মূল মূল্যবোধ এবং বিশ্বাস কি?)

- I believe being honest with others is important. If you are truthful, people will trust you. I believe in doing the right thing, even when no one is watching. Another big thing for me is caring about how other people feel. Understanding their perspective helps me get along with them better. These values guide me in my life.

**Que:** What are your goals and aspirations? (আপনার লক্ষ্য ও আকাঙ্ক্ষা কি?)

- As a frontend developer, my goal is to make websites look and work well. I want to keep learning about new technologies and cool design ideas. In the short term, I want to work on exciting projects that help me get better. In the long term, I hope to lead projects or teams. Overall, I want people to notice my work and say, 'Wow, that website is awesome and easy to use!'

**Que:** What are the first steps you will take to build your personal brand? (আপনার ব্যক্তিগত ব্র্যান্ড তৈরি করতে আপনি প্রথম পদক্ষেপগুলি কী কী নেবেন?)

- My semester finals are going on. After this exam, I will have a long vacation. I want to make the most of my vacation. First, I will create a portfolio website for myself. I think a frontend developer without a portfolio is like a warrior without weapons. And I will also work on some projects for my practice. I already made my GitHub account more attractive, now it's time to make my GitHub account more attractive by adding my projects. And I will also make my LinkedIn account more professional. I will share all of my project's GitHub links on my social accounts like LinkedIn, Facebook, and Instagram.

**Que:** How does personal branding differ from self-promotion, and why is this distinction important? (ব্যক্তিগত ব্র্যান্ডিং কীভাবে স্ব-প্রচার থেকে আলাদা, এবং কেন এই পার্থক্য গুরুত্বপূর্ণ?)

- The difference between personal branding and self-promotion is maintaining authenticity and building long-term relationships. Personal branding encourages a more holistic, authentic presentation. On the other hand, self-promotion can be opportunistic or transactional without being grounded in a larger personal brand. Balancing the two is essential for a holistic and sustainable approach to professional presence and growth.

**Que:** What are you most proud of? (কোন বিষয়ে আপনি সবচেয়ে বেশি গর্বিত?)

- I am most proud of a project where I was the most junior member of my team. My university has recently held a Hackathon contest. For that contest, we had to make a website and I was a part of that team. In fact, at that time, I didn't finish my web

development course. I had a little knowledge of React JS. However, I played a key role in the team. This experience was great. The Dean of Science and Engineering at my University was impressed by my work.
